Pool construction update:

Residents, construction around the pool and clubhouse is coming along on schedule.

As many know, with any construction project, unforeseen things can happen. While removing the concrete around the pool, we found that many years ago when this concrete was poured, the Village code allowed electrical Romex to be laid and concrete poured over it. Yikes!

While removing this concrete, the electrical lines feeding power to the Parking Lot and Cabana were cut! This explains the lack of Parking Lot lights and Cabana lights.

Please be assured we are on top of this issue and are working with an electrician to restore power to these areas as soon as possible.

Thank you,

Board of Directors
